Position of the Faculty Senate of Southern University and A&M College,
Baton Rouge, Louisiana, with respect to some of the recommendations of
the Louisiana Postsecondary Education Review Commission

During its meeting of February 11, 2010, the Faculty Senate of Southern University and A&M College
took the following positions with respect to some of the recommendations of the Louisiana Postsecondary
Education Review Commission.

We oppose the consolidation of four-year Louisiana University governing boards into one board. The
reasons for our opposition include: (I) there are many different governance structures across the country
and we are yet to see any relationship between management structure and student performance, (II) unless
the board members of the new board become full time board members, it will be impractical, if not
impossible, for them to have oversight of all campuses under their governance, (III) the diversity of
student bodies and their respective educational missions across Louisiana require multiplicity of
management boards, and (IV) the proposed one-board system will focus on the administration aspect as
opposed to instruction aspect, thereby further marginalizing the students and faculty.

We oppose the Commission’s recommendation of basing the funding formula on the end of the semester
credit hours rather than the 14th day credit hours. The reasons for our opposition include: (I) at the
beginning of each semester, universities are obligated to hire adequate teaching personnel for the entire
semester, (II) university resources, facilities, utilities, and support services are used by all students
including those who drop, and (III) this recommendation of the Commission has a potential of influencing
academic decisions of the university/instructors whether to pass a student, due to financial considerations.

We oppose the Commission’s recommendation of funding all incoming students based on a flat rate for
the first 60 credit hours for all baccalaureate programs regardless of institution. The reasons for our
opposition include: (I) it is recognized throughout the country that there are differences between courses
in various disciplines that involve laboratories and those that do not, (II) there are differences between
courses that involve intensive instrumentation and those that do not, (III) the universities have faculty of
diverse seniority levels and diverse distinctions with hugely different salary structures, (IV) this
recommendation of the Commission will discourage the service of senior faculty in teaching courses from
the first 60 credit hours of a student’s program, and (V) this recommendation, in the long run, will destroy
academics and research as we know it, by replacing a large number of tenured senior faculty by adjuncts
and temporary faculty members.

Thank you very much for your attention.
Dear Mr. Chairman and Board Members:

On 2-24-2010, I made a presentation before the Board of Regents stating Southern Faculty Senate's position on some of the recommendations of the Tucker Commission. Attached is a copy of presentation. At my request, Dr. Bagayoko also made a presentation on formula funding. Our presentation invited some nice comments from Regents Robert J. Bruno. He thanked us for being there and presenting our case.

On 2-11-2010, the Faculty Senate voted 12 - 2 to oppose dissolution of management boards into one board. Four members abstained. I voted against dissolution. Two voting for one board were native African Americans.

On 02-04-2010, I also testified before the Tucker Commission, basically opposing some of their recommendations. I will get you the transcript of that presentation at a later time. Thank you very much for your attention.

AGENDA ITEM 5: SU Student Government/Bar Association Leaders' Comments regarding the Presidential Search

Committee Chair Hunter presented to the Committee a letter from current Presidents of the Student Government and Bar Associations, which indicates their support for Interim System President Kassie Freeman's candidacy for the position of president of the Southern University System; and, requested the Board reverse its previous action prohibiting the person who serves as Interim System President apply for the position.

Atty. Murphy Bell, Co-Chair of the Presidential Search Committee, voiced his opposition to the student leaders' request. He advised that the Board's action was taken to prevent the person serving as Interim System President from having an advantage over other applicants in obtaining the position on a permanent basis. He also noted that none of the Student Leaders attended meetings of the Presidential Search Committee to advance their position. In closing, Atty. Bell advised that the search process would appear to be tainted, should the Board elect to reverse its original decision.

Countering Atty. Bell's statement, Mr. Caiton suggested that the Board reverse its previous decision to allow Dr. Freeman to apply for the permanent position.
