RE: Approval to establish the Insurance Law and Policy Institute at the Southern University Law Center

Dear Dr. Belton:

Insurance has enormous financial significance. In 2021, the industry underwrote more than \$2.7 trillion dollars in premiums and employed close to three million people. This number does not include the thousands of lawyers practicing insurance law in private law firms, insurance agencies, and other settings. The United States has the largest insurance market in the world. Louisiana ranks 25th in premium volume. Overall, insurance industry employment in the state is approximately 40,000, which again does not include lawyers not employed by an insurer or insurance related entity. While insurance law and regulation are still largely state law (outside of health insurance), the industry itself is national and increasingly international. The top ten property casualty insurers writing in Louisiana are all national insurers. This means that opportunities for lawyers practicing in this field are at the state, national, and international level.

In particular, some major/social problems insurers address include climate change, social governance, policing, and enhancing corporate diversity and inclusion. Insurance and broadly speaking, the insurance industry employs more attorneys than any other industry, particularly in property casualty where insurance funds much of our tort system and provides the structure for claim resolution prior to litigation. Liability insurers, typically select, manage, and pay insurance defense lawyers to defend their policyholders and insurers themselves are both defendants and plaintiffs in thousands of lawsuits each year. Insurers also hire lawyers for claim and underwriting positions outside of in-house law departments as "JD Preferred" candidates.

The institute would become a pipeline for creating opportunities for SULC students and even SUBR students to insurance-related jobs and careers through the development of (a) academic

offerings, (b) field placements, externships, experiential learning opportunities, and summer placements, and (c) non-degree certificate programs, conferences, continuing education events, scholarship opportunities through foundations, and the Louisiana Department of Insurance.

The institute would also seek to partner with the SUBR College of Business, the Nelson Mandela School of Government, SUNO School of Business and Public Administration, as well as the SUSLA Roy Griggs School of Business.

I respectfully request that the Southern University Board of Supervisor approve the creation pf the Insurance Law and Policy Institute at its June 24, 2022, board meeting. If you have any questions, please feel free to contact me.

Sincerely,

ohn K. Pierre

RE: Articulation Agreement between Washtenaw Community College (WCC) and Southern University at New Orleans (SUNO).

Dear Dr. Belton:

Southern University at New Orleans (SUNO) is seeking your support and approval from the Southern University and A&M College System Board of Supervisors to establish a Memorandum of Understanding (MOU) between Washtenaw Community College (WCC) and SUNO.

Washtenaw Community College, located in Ann Arbor, Michigan, is one of the nation's premier community colleges with an annual curollment of more than 18,000 students. WCC strives to make a positive difference in people's lives through accessible and excellent educational programs and services.

Washtenaw Community College and Southern University at New Orleans agree that students, who choose to transfer from a community college to a four-year college to earn a baccalaureate degree, should be provided with a smooth curriculum transition that minimizes loss of credit and duplication of coursework. Therefore, WCC and SUNO agree to develop a curriculum articulation agreement for students who complete the WCC Associate of Arts Degree Programs and transfer to SUNO's Bachelor of Arts or Bachelor of Science Programs in Biology, Business Administration, Child Development and Criminal Justice. We plan to articulate additional programs in the future.

Thank you for your consideration of this request.

With kind regards,

James H. Ammons, Jr., Ph. D. Executive Vice President-Chancellor Southern

Policy and Procedure Memorandum No. 52, Revised, requires that all Requests for Changes in Appropriation be fully documented. At a minimum, the following questions and statements must be answered. Use Continuation Sheets as needed. FAILURE TO ANSWER ALL QUESTIONS COMPLETELY WILL BE CAUSE TO RETURN THIS DOCUMENT WITHOUT ACTION.

1. What is the source of funding (if other than General Fund (Direct))? Specifically identify any grant or public law and the purposes of the funds, if applicable. A copy of any grant application and the notice of approved grant or appropriation must accompany the BA-7. What are the expenditure restrictions of the funds? The source of funding is supplemental appropriations for direct, interagency transfer, and fees & self-generated funds for fiscal year 2021-2022. The direct funds will support operating services, infrastructure upgrades, equipment, implementation of SUBR Nursing Building and support for SUNO new Nursing program. The Laboratory School had an interagency transfer adjustment from Minimum Foundation Program due to increase enrollment. The Baton Rouge Campus had a revenue increase for fees and self-generated revenue from indirect cost and other self-generated revenue earned from HEERF funding. The Law Center had an increase in self-generated funds as a result of increased enrollment and increased indirect cost revenue earned from HEERF funding.

2. Enter the financial impact of the requested adjustment for the next four fiscal years.

Office of the Chancellor

June 6, 2022

Dr. Ray L. Belton President-Chancellor Southern University System Office 4th Floor, J. S. Clark Administration Building Baton Rouge, La. 70813

Dear Dr. Belton:

As per the attached request letters from Dr. Barry Hester, Interim Vice Chancellor of Academic Affairs and Workforce Development and Professor JoAnn Brown, Dean of Allied Health & Nursing, as well as the program directors of Allied Health & Nursing, and Business Studies, I submit to you for your support, review and approval of proposed academic fee adjustments,

An extensive due diligence process was adopted that included multiple meetings with program directors to review and discuss the requests, justifications for the requests, and comparisons to peer institutions to mitigate any potential negative impact to the programs. Most of the Allied Health and Nursing programs implemented program fees in Fall 2017 with no adjustments requested since that time.

A master spreadsheet of the proposed fee adjustments along with the request letters from the academic program directors are attached for your review and consideration.

Respectfully submitted,

Vladimir A. Appeaning, Ph.D.

Interim Chancellor and SU System Vice President

RE: Radiologic Technology Request to Increase Clinical Student Fees

After carefully analyzing the increased cost of materials and supplies, the program respectfully requests an increase in program fees. The program fees were designed to reduce the out-of-pocket burden of our student population; most of the students in our program receive financial aid. The chart below indicates the amount proposed.

Re: Request for Increase in Student Fees

Please accept this letter as a request to increase the fees charged to the Respiratory Therapy clinical students. As we continue to research and implement best practices for student success, we would like to add additional resources, such as Lindsey Jones, a credentialing exam software, which has a cost of \$349.00 per student. We are also requiring students to be Pediatric Advanced Life Support (PALS) certified which cost of \$100.00. This will help the students on the National Board for Respiratory Care Credentialing Exam and make the students more marketable in the field. The increase in fees will also help with the increased cost of supplies and material needed to run the Program.

Medical Laboratory Technician and Phlebotomy Programs

Re: Request for Increase in Student Fees

The Medical Laboratory Technician and Phlebotomy programs are submitting a request to increase student fees. The request is for \$100.00 to be added to each MLTC lab and lecture course. In each of the lecture courses, the faculty simulate lab procedures. Some of the simulations require the use of reagents and at this point, the program reagents are outdated. With the additional fees, the program will be able to purchase reagents and other supplies and equipment.

Each year, students participate in ASCLS State Conference for Clinical Laboratory student. This conference allows the students to engage with other MLT students from other Universities. It also gives the opportunity to network for employment and to see new technology in the CLS workforce. Due to COVID, hotel, and conference registration has increased tremendously. The additional fees will help each student with that increased cost.

Per our NAACLS site visit, the question was asked about updated instruments, such as Chemistry analyzer, and microbiology equipment and reagents. The additional fees could help with purchasing new equipment, such as a Chemistry analyzer (\$5000-\$6000), microbiology equipment and reagents (\$6000), update microscopes, quality controls and reagents that are not expired.

The phlebotomy student fee request is for an additional to be added to PHLEB 210S.

The cost for laboratory supplies have increase greatly since COVID arrived in the world. Collection equipment and supplies have tripled in price. The additional funds per student will assist with the price increase for equipment and supplies.

The program would like to purchase two subscriptions: ASCP and Media lab online practice exams, and a quick reference phlebotomy pocket guide notes (flipbook) that will assist the student in clinical rotations and on the National Registry Exam.

Thank you for the consideration of this request,

Re: Request for Increase in Student Fees

Please accept this letter as a formal request to increase the fees charged to clinical nursing students as they matriculate through the professional component of the program. These fees were initially approved in 2017 by the SU Board of Supervisors. Over the years, the cost of the items purchased with these funds has increased. Most notable, the electronic nursing education resources provided by Assessment Technologies Institute (ATI) has increased. The resources used by students and faculty, as a part of our Complete Partnership with ATI, has proven invaluable over the years. In 2016 & 2017, our program was placed on probation with the Louisiana State Board of Nursing for low first-time licensure pass rates. As part of nursing's action plan to increase NCLEX pass rates, ATI was introduced. Since then, our program has exceeded the 80% minimum requirement for first-time licensure pass rates.

The attached proposed fee spreadsheet outlines the specific amounts requested to be added to a course in each clinical semester to cover the increased costs. I hope that you will favorably consider this request. Please indicate your decision on the corresponding line below.

Polysomnographic Technology Program

SOUTHERN UNIVERSITY AT SHREVEPORT

To: Mrs. Jo Ann Brown, Dean

Allied Health Sciences & Nursing

Dr. Barry Hester, Interim Vice Chancellor Academic Affairs & Workforce Development

Re: Request for Implementation of Student Fees

Please accept this letter as a proposal to implement fees that will be charged to students enrolled in the Polysomnography Technology Program. This program is currently one of only two in the state of Louisiana, Delgado Community College offers the offer program in the Southern region of the state.

The program received approval by the Southern Association of Colleges and Schools Commission on Colleges (SACS-COC) in March 2021, following the substantive change approval. The program received approval from the Board of Regents in February 2015. In August 2021, the university hired a full-time Polysomnography Technology Program Director and accepted the first student cohort Spring 2022. Currently, there are four (4) students enrolled, who are in the 2nd semester of the program sequence with an expected graduation date of May 2023.

The program is considered high cost, however, through due diligence, every effort has been made to ensure that the requested fees are affordable and comparatively below that of fees charged by other institutions, such as Alvin Community College. The total fees requested by the Polysomnography program amounts to \$1,280.00 compared to \$1,410.00 charged by Alvin Community College.

The attached proposed fee spreadsheet outlines the specific amounts requested in each clinical semester.

Thank you for your time and consideration for our program fee proposal.

Re: Surgical Technology Program Fee Increase

There has been a significant cost increase for surgical instruments and supplies. Because the cost of some surgical instruments and equipment has been out of reach, we incorporated Virtual Reality and computer simulation in the lab. This student is charged a one-time access fee that covers the entire 12 months in the program. We are requesting approval for an increase of \$ 415 in total fees which includes the cost of the virtual simulation innovation and to realign the overall increase in cost of scrubs, instrument and supplies as well surgical case logs fees from on outside sourced computer server. These fees will be paid through the students' financial aid assistance fees which will decrease out of pocket expense.

Re: Sterile Processing Program Fee Increase.

Due to the changes at some clinical sites where students have to wear their own scrubs while processing dirty instruments, the program is asking for an increase in fee to provide clinical students with a second pair of scrubs. Additionally, the sterile processing program has not assessed a lab fee for supplies sterile processing students used in the surgical technology lab. Since the cost of instruments and supplies continues to increase, it is reasonable to assess a minimal \$100.00 fee for the use of sterile processing lab. These fees will be paid through the students 'financial aid assistance and decrease students 'out of pocket expense.

Dear President-Chancellor Dr. Belton,

Thank you for the opportunity to review and analyze the data provided by the Louisiana Board of Regents (BOR). We worked under the BOR directive that after providing a \$1,000 raise to all full-time instructional staff you had the discretion to allocate the rest of the funds to best serve institutional need and priority.

Our initial review led to a belief that an across-the-board percentage was appropriate. However, upon closer scrutiny and after examining the salary gap between SREB average, and prevailing faculty salary at Southern University Baton Rouge, it was considered appropriate to provide a differential percentage raise to those colleagues who are full professors. Per the data provided, the gap from SREB is most evident in the higher rank and the opportunity to bridge the gap is limited for this group with no potential for upward mobility.

Academic leaders at various levels of seniority and responsibility were consulted. Yesterday you met with the faculty senate and received quality input. There is now consensus that we should provide a 6% salary increase to full professors followed by a 3% increase to Associate and Assistant Professors. The Instructors in this model will receive a \$1,200 increase.

With kindest regards,

RE:

Salary Increases - Faculty

This memo describes the methodology we plan to use to distribute salary increases granted by the State of Louisiana to Southern University at New Orleans' (SUNO) faculty. Based on the instructions, all faculty members will receive at least \$1,000, and the proposed distribution of the remaining dollars is described in the methodology below:

Methodology

Step 1: Professors, Associate Professors and Assistant Professors will receive a 5%

salary increase from current base (\$251,275)

Step 2: Professors and Associate Professors will be brought up to 80% of SREB

average from the current base (\$145,248)

Step 3: Professors under \$70,000 will be brought up to this minimum amount

(\$15.921)

These actions will move us closer to achieving our goal of creating a competitive salary structure in line with the SREB average, which is also an important part of our strategic plan.

RE: Salary and Wage Increases

Dear Dr. Belton:

The Southern University Law Center, acting upon the initiative of Governor Edwards and the Louisiana Legislature, wishes to provide Salary and Wage (S&W) increases, at an average of five percent (5%), to its full-time and part-time permanent employees. We have determined that the proposed S&W increase, including fringe benefits will have an annual gross cost of approximately \$883,351 and a net cost of \$768,551, after the state allocation for salary increases. We have reviewed our finance and budget data and determined that our budget will be sufficient to fund the proposed S&W increase for the upcoming fiscal year and for future years. The Law Center is requesting that the S&W increase become effective July 01, 2022.

I respectfully ask that this request be presented to the Southern University Board of Supervisors, at its June 2022 Board Meeting.

Thank you and with kind regards.

RE: Faculty Salary Adjustments

Dear Dr. Belton:

With respect to SUSLA faculty, per the analysis provided to me by SUSLA's finance office (see attached), *I propose bringing all SUSLA full-time faculty to 100% of the SREB Average by Rank*. The total cost (salary and fringe) is estimated at \$480,670, which includes all faculty receiving at least \$1,000. SUSLA received \$414,620 in our FY 2022-23 state appropriation for faculty raises. Per the analysis provided to me by SUSLA's finance office and based on the stringency measures adopted to-date in the implementation of our Austerity Plan, I am confident that we are well-positioned to cover the difference of \$66,050 to bring our faculty to 100% of the SREB Average by Rank.

These actions will allow SUSLA to achieve our goal of creating a competitive salary structure for our faculty that is aligned with the SREB average by Rank. Therefore, I respectfully request your endorsement and that of the Southern University System Board to move forward with approving the proposed request.

Mr. Byron P Decoteau, Jr. Director Department of Civil Service P O Box 941.11

Dear Mr. Decoteau, Jr.:

Southern University at Shreveport is requesting approval to implement a Layoff Avoidance Plan In accordance with Civil Service Rule 17.9 due to the reduction in funding for the fiscal year 2021-22. Due to the Covid-19 pandemic, the university experienced a decline in full-time equivalent (FTE) enrollment resulting in a reduction in revenues to cover operating expenses. The shortfall is projected to be \$2.2 million. This Plan will offer a retirement incentive program to eligible Civil Service employees, it would offer a one-time lump-sum payment as an incentive to retire and will apply to all Southern University at Shreveport employees who are eligible for regular retirement in accordance with regular state retirement regulations. All employees who are eligible to retire may choose to participate in the Plan.

Civil Service employees who are eligible for retirement would be offered a lump-sum payment of forty percent (40%) of the savings realized by the Southern University at Shreveport Campus. This savings would be realized as a result of the employees' retirement during the 2022-23 fiscal year. The effective date of this Plan shall be July 1, 2022 to June 30, 2023.

All eligible employees will be notified on or about May 30, 2022. Those employees interested in participating in this Plan will be required to advise Human Resources by June 15, 2022. To be eligible for this lump-sum payment, employees who wish to participate in this Plan must retire on or before June 30, 2022. Participants in this Plan will not receive any payments until they have officially separated from Southern University at Shreveport.

If any additional information is required, please let us know. Your assistance in this matter is greatly appreciated.

Dr. Ray Belton President/Chancellor Southern university system Campus

Dear Dr. Belton:

This is a request for a salary adjustment for Dr. Nadia Gadson (Moses) for your final consideration. The present salary is \$64,000 (12 Month) and the adjustment request is an additional \$10,000. As expressed earlier in our meeting, this request is relevant because of increases in Department of State (SEVIS) responsibilities related to clearing, enrollment, securing and maintaining records and confidential document of our global (international) population. This population includes all international students, faculty, visiting and research scholars.

Given that the work of this office supports the entire Southern University System, Dr. Gadson's responsibilities extend beyond the regular working day. The Center of International Affairs is on duty 24/7 and there is no regard for the COVID Pandemic, as the work of this office could not stop.

A review of the salaries of personnel in similar positions indicates a gross discrepancy among pay. Not only is this apparent in gender equity, but, performance and qualifications as well. To this end, I appreciate your consideration of this request to bring parity to the salaries of those who are not on the pay scale of others with similar qualifications and responsibilities.

Sincerely,

Parbara W. Carpenter, PAD

Dean and Professor
International Affairs and University Outreach

APPROVAL:

Dr. Ray Belton, President/Chancellor

Re: Request for Waiver on Position Vacancy Announcement- Director of Data Assessment and QEP

Dr. Sahoo:

I respectfuily submit this letter to request authorization to waive the vacancy announcement for the position of **Director of Data Assessment** and QEP for the University College because we have a highly qualified leader, Dr. Alisa Ross, on campus who can fill the post immediately. Dr. Alisa M. Ross is an ideal candidate for the Director of Data Assessment and QEP position because of her formal training and previous work experience. Dr. Ross is a passionate educational leader who believes all students are capable of learning, education must be student-centered. Additionally, enjoy working with other educators. Dr. Ross obtained her Doctor of Education In Educational Leadership at Nova Southeastern University in December 2014. The focus of her dissertation was a program evaluation of an instructional program for at-risk youth in grades 6%—8%. She has over 15 years of secondary teaching experience that includes teaching middle and high school Social Studies, serving as a Social Studies instructional CoachySpecialist, a Department Chalrperson, Mentor, Team Leader, and Testing Coordinator. The roles have enabled her to transition from a classroom teacher into an instructional leader. More specifically, she was able to collaborate with other instructional specialists to design interdisciplinary activities, facilitate professional development trainings, and analyze and report student data.

Dr. Ross began her teaching experience on the collegiate level as an Adjunct Professor at Southern University and A&M College in August 2015. Currently, she serves as an Assistant Professor and Program Leader in the School of Education at Southern University and A&M College. Some of her duties include teaching face-to-face and online classes, creating formal and informal assessments, communicating with students, developing course syllabi, and serving on various committees. Her most recent accomplishment was transitioning the Educational Leadership Program from the traditional "brick and mortar" format to 100% online beginning Fall, 2022. Dr. Ross currently serves as the Chair for the QEP committee and assisted with this project before and after the resignation of the former QEP Director in April of 2022.

For the past two months, Dr. Ross met with the Steering Committee, two of the three sub-committees, and Dr. Smith of the Gardner Institute, To date, Dr. Ross completed the Gateways to Completion Inventory and configured and distributed the Gateways to Completion course survey links to the respected instructors. The accompanying resume should serve to give you an idea, not only of her past achievements, but of her potential for making a significant contribution to the success of all undergraduate students. Should you have additional questions or concerns, please contact me at 225-771-2166 or via email at Zackeus.johnson@sus.edu

Sincerely,

Zackens D. Johnson, Ph.D.

Dr. Ray L. Belton President-Chancellor Southern University and A&M College System J. S. Clark Administration Building Baton Rouge, LA 70813

Dear Dr. Belton:

It is my pleasure to recommend Dr. Kelly Smith as the chair of the Bachelor of Science in Nursing (BSN) program at Southern University at New Orleans (SUNO) effective July 1, 2022. The appointment will include the academic rank of Associate Professor with tenure and a salary of \$125,000. Since January 2022, Dr. Smith has served as interim chair. She applied for the permanent role and emerged as the finalist after the conclusion of a national search. With approval of this recommendation, the program will stay on track to admit its first class in August 2022.

Dr. Smith holds a Bachelor of Arts (BA) and Bachelor of Science in Nursing (BSN) degrees from Dillard University, a Master of Nursing (MN) degree from Louisiana State University Health Sciences Center – New Orleans and a Doctor of Nursing Practice (DNP) degree from Loyola University. She also holds a current unencumbered nursing license as an APRN (advanced practice registered nurse) in the state of Louisiana.

Dr. Smith has extensive experience in nursing practice and nursing education. Her clinical experience includes ten years of practice in Community Health Nursing and five years as a statewide nurse consultant on health promotion issues for chronic disease and tobacco control for the Louisiana Office of Public Health. She also served four years as the Director of Health Services for the Louisiana Office of Juvenile Justice. In addition, she served for three years as a part time RN Supervisor for the Poydras Home, overseeing health care for seniors. She currently serves as a Nurse Educator for the School of Public Health at Louisiana State University School of Health Sciences.

Her academic experience is also extensive having served for four years as Assistant Professor of Nursing at Dillard University School of Nursing and one year at Chamberlain College of Nursing at Ochsner, and as the Research Coordinator at LSU Health School of Nursing for two years.

Dr. Smith is also credentialed by the National League for Nursing as a Certified Nurse Educator (CNE). The CNE designation is earned by passing a voluntary national test that signifies expertise in professional nursing education including curriculum design, teaching, evaluation, and advisement. Finally, her references report that Dr. Smith is a person of strong work ethic, high integrity, and highly passionate and committed to nursing education especially in service to students of color.

These attributes along with her academic credentials, extensive clinical and academic experience, and her status as a CNF support her potential for successful service as the founding chair of the BSN program here at SUNO.

Thank you for considering this request and submitting it for approval at the June 24, 2022 meeting of the Southern University and A&M College System Board of Supervisors.

With kind regards,

Ray L. Belton, Ph.D., President-Chancellor 4th Floor, J.S. Clark Administration Bldg. Baton Rouge, LA 70813

Dear Dr. Belton:

Please accept this request for approval to adjust the salary of Mr. Michael C. Taylor (U0191444) in his duties as Associate Vice Chancellor of Enrollment Management and Student Success, effective July 1. 2022. In this position, Mr. Taylor has assisted in expanding the university's enrollment reach in current and new markets, facilitating a newly formed enrollment management task force, and implementing data-driven recruitment plans and goals that have proven most beneficial for the university's enrollment numbers. Specifically, he assumed additional duties on projects such as the development and implementation of a pilot project call center, facilitation of annual registration and payment campaigns, and the development of a stop-out program.

The average Associate Vice Chancellor's salary in Louisiana is \$123,556/annually, but the range typically falls between \$103.115 and \$148.454/annually. The average Associate Vice Chancellor salary in Baton Ronge is \$119,919/annually, but the salary range typically falls between \$100,080 and \$144,084; annually (based on compensation data from salary.com). For this reason, and due to the progress Mr. Taylor has made since joining Southern in January of 2021. I am asking that his salary for FY 2022-2023 be adjusted from \$93,600 to 98,600/annually (allocated budget: 211001-22601-61002-27000).

I also welcome the opportunity to bring Mr. Taylor's salary into alignment with current state or local averages, if it becomes feasible and prudent for the university's budget. Meanwhile, I thank you for the continued support that you have shown thus far regarding his efforts to prioritize and streamline the enrollment operations of our university. Please let me know if you need additional information

Respectfully.

Jarqueline 4. 1 ast y

RE: Recommendation of Mrs. Sonia Wilson - Expansion of Duties and Responsibilities

Dear Dr. Belton,

This letter comes as a request for a new position which will expand the job duties and responsibilities of Mrs. Sonia Wilson. Mrs. Wilson will become the new Temporary Assistance for Needy Families Project (TANF) Program Manager, funded by the Department of Family and Children Services. Although the program was initiated October 1, 2021, there was a significant delay in receiving the fully executed budget from the funding agency. In addition, this position will expand her current duties as Small Business Consultant funding by the Small Business Administration (SBA).

Mrs. Wilson currently hold a Master's in Administration Supervision and Political Science. Complementing this request is a salary adjustment of \$30,000 to supplement her existing salary from the Small Business Development Center of \$50,000, resulting in a total of \$80,000.00 with an effective date of October 1, 2021.

I am requesting your endorsement and that of the Southern University Board of Supervisors to expand the job duties and responsibilities for Mrs. Sonia Wilson. Thanking you in advance for your consideration of this request and that of the SU Board of Supervisors.

Sincerely,

Mechael A. Stubblefield, PhD

Vice Chanceller for Research

Re: Position Authorization and Search Waiver for Chief of Staff

Dear Chairman Shorty and Honorable Members of the Board:

Dr. Katara Williams has dutifully served as Chief of Staff under my administration, but, upon my retirement, is seeking a new position with the Southern University Agricultural Research and Extension Center. The Chief of Staff is of critical importance. It is imperative that this position be immediately filled to assist the new administration in a smooth transition, which will greatly benefit the entire Southern University System community. As such, this request is brought to you on behalf of Mr. Dennis J. Shields, President-Elect.

I have agreed to waive the search for this position and President-Elect Shields has identified a stellar candidate to fill the position. Dr. Melva K. Williams's career has been dedicated to higher education with over 17 years of experience within the Southern University System, including Shreveport and New Orleans. She will bring a wealth of knowledge and is ready to serve. Therefore, I request, on behalf of President-Elect Shields, that you appoint Dr. Melva K. Williams to the position of Chief of Staff-Elect, commencing June 1, at a salary of \$150,000. She and current Chief of Staff, Dr. Katara Williams, will be able to coordinate efforts during the month to ensure continuity of service. Upon July 1, 2022, Dr. Melva Williams will assume the permanent position of Chief of Staff.

It is for the above-referenced reasons, I seek your favorable consideration of this request. Should you have any questions, please do not hesitate to contact me.

Kindest Regards,

Ray L. Belton, Ph.D.

RE: Request to approve Leave/Sabbatical for Southern University Law Center faculty members: Adam Crepelle, Katherine Macfarlane, and Kenya Smith

Dear Dr. Belton:

The Southern University Law Center faculty have been receiving professional development opportunities that will require them to be on leave or sabbatical for part or all the 2022-2023 academic year. Those faculty members include Professors Adam Crepelle, Katherine Macfarlane, and Kenya Smith.

Professor Crepelle received an unpaid professional leave/sabbatical for the 2021-2022 academic year to serve as a visiting professor at the Antonin Scalia School of Law located at George Mason University. George Mason University has again granted him visiting professor status for the 2022-2023 academic year and will pay his full salary for him to continue at the Antonin Scalia School of Law. I am recommending that the Southern University Board of Supervisors approve an unpaid leave for the 2022-2023 academic year. Professor Crepelle and the Southern University Law Center have both benefitted from the opportunity presented to him.

Professor Macfarlane has received an offer for a one-year paid fellowship by the Ford Foundation for the 2022-2023 academic year. She will be collaborating with a team on an important project led by the United States Department of Education to study changes to disability laws enacted in 1973. The Ford Foundation will pay her salary for the 2022-2023 academic year. I am recommending that the Southern University Board of Supervisors approve a one-year unpaid leave/sabbatical for Professor Macfarlane to pursue the opportunity which will be beneficial to her and the Southern University Law Center.

Professor Kenya Smith has received a position offer as a visiting professor for the fall 2022 semester at the University of Idaho School of Law. The University of Idaho will pay his salary for the fall 2022 semester. I am recommending that the Southern University Board of Supervisors approve a one-semester unpaid leave/sabbatical for Professor Smith to spend fall 2022 semester as a visiting professor which will be beneficial to him and the Southern University Law Center.

I respectfully request that my recommendations be presented to the Southern University Board of Supervisors for approval at its June 24, 2022, board meeting.

If you have any questions, please feel free to contact me.

Sincerely.

John K. Pierre

Chancellor and Vanue B. Lacour Endowed Law Professor

- 7.3 Upon early termination of this Agreement for any reason, University will refund the unearned portion of all Sponsorship Fees, Scholarship Funds and a pro rate portion of the costs of refurbishing and installing the Equipment paid with respect to the Agreement Year in which termination occurs. The Sponsorship Fees will be deemed earned pro rate on a daily basis during each applicable Agreement Year, in each case up to the date of termination or, if earlier, the date of any breach hereunder by University.
- 7.4 If any material component of the Campus is closed for more than thirty (30) consecutive days, but less than one hundred twenty (120) consecutive days, Sponsor may extend the Term for a corresponding period at no additional charge to Sponsor, whether or not such closure is due to a cause beyond the reasonable control of University.

In the event Sponsor elects to exercise its right to such adjustment and refund, University may, at its option, within ten (10) days following receipt of notice of any adjustment, notify Sponsor of its disagreement with the amount of the adjustment. The parties will then attempt in good faith to resolve the disagreement over such adjustment. If the parties cannot, after good faith negotiations, resolve the matter, Sponsor may terminate this Agreement.
- 7.6 The parties acknowledge that the rights granted to Sponsor herein are special, unique and extraordinary, and are of peculiar value, the loss of which cannot be fully compensated by damages in an action at law or any application of other remedies described herein. As a result, University acknowledges and agrees that, in addition to any other available remedies, in the event of a material limitation of any of Sponsor's rights hereunder, Sponsor will be entitled to seek and obtain equitable relief, including an injunction requiring University to comply fully with its obligations under this Agreement.
- 7.7 University recognizes that Sponsor has paid valuable consideration to ensure an exclusive associational relationship with University, the Teams, the University Marks, and the Cempus with respect to Beverages and that any dilution or diminution of such exclusivity seriously impairs Sponsor's valuable rights. Accordingly, University will promptly oppose Ambush Marketing and take all reasonable steps to stop Ambush Marketing and to protect the exclusive associational rights granted to Sponsor by University in this Agreement. In the event any such Ambush Marketing occurs during the Term, each party will notify the other parties of such activity immediately upon learning thereof.

MEMORANDUM OF UNDERSTANDING

Between

Southern University and A&M College
Baton Rouge, Louisiana, USA
and

EAST BATON ROUGE PARISH SCHOOL SYSTEM Baton Rouge, Louisiana, USA

PARTIES

Southern University and Agricultural & Mechanical College, hereinafter referred to as "SU", and East Baton Rouge Parish School System, hereinafter referred to as "EBRPSS", enter into the following terms of this Memorandum of Understanding (MOU) with respect to implementing a Southern University Teacher Academy using the Focus Choice Schools concept to serve students interested in a career in teacher education.

Focus Choice Early College Schools is a model concentrating on implementing choice schools that are innovative and provide a stimulating and challenging curriculum while capitalizing on integrating a postsecondary partnership. The centralized goal of this school is to increase the number of students who want to be a teacher and pursue a degree in education. The program will provide opportunities for middle to high school students (6th-12th grade) to earn college credits focused on teaching and learning during the years in the SU Teacher Academy. The purpose of this plan is to provide innovative programs, and enhanced opportunities to systematically implement a teacher themed-based program for students interested in becoming a teacher. Programs are aligned with the district's Strategic Plan to increase available seats, add, or enhance innovative programs, promote systemic recruitment strategies and to increase seats at schools with capacity. In alignment with the Pathways to Bright Futures academic programming design, Focus Choice Schools specialized programs will provide students with the opportunity to participate in dual enrollment programs that will allow them to graduate from high school with an Assoicate of Science in Teaching degree with a partner institution.

Rationale: The United States Secretary of Education, Miguel Cardona, has placed a special focus on increasing the number of teachers choosing education, especially after the devastating effects of the pandemic. By creating base models to encourage students to enter the teaching field, the trend that has impacted school districts, especially in Louisiana, will hopefully stabilize in the next five years. To that point, the East Baton Rouge Parish School System (EBRPSS) will develop

a program jointly with the Southern University (SU) System to establish a Teacher Academy at Southern University for students in 6-12 grades. School System teachers serve as "teachers-on-record" with SU professors to promote, prepare and guide prospective teacher candidates. The program will design to nurture and provide support during a variety of pre-student teaching field experiences as well as during student teaching. SU teacher candidates taking these courses also assist classroom teachers by tutoring students and helping design thematic workstations.

PURPOSE AND SCOPE

Creating and implementing sustainable partnerships has always been a focus of the EBRPSS with a vision that promotes specialized and resilient collaborations with applied research and postsecondary institutions. Consequently, the aforementioned parties will engage in collective activities to create and implement a dynamic, career-focused dedicated focus choice school to advance education and research needed to confront the lack of teachers which is a challenge in Louisiana.

Recognizing true partnerships constitute mutual, meaningful and collaborative relationships, the School of Education at Southern University will play a key role in addressing the current and future needs of career pathways in teacher education. As a PK-12 learning institution, EBRPSS will create and implement a dedicated focus choice school for teacher candidates in grades 6-12, starting with grade six through ninth in the 2023-2024 school year and adding one grade per year thereafter. The partnership SU will provide EBRPSS with specialized knowledge, resources and assistance to develop a rigorous, project-based teacher academy model designed to engage students in a career in a teaching field. Students will be given the tools that they need to be successful in a college-level teacher education program with a focus on the knowledge, skills and dispositions needed to become an effective teacher.

The ultimate goal of the program is to develop and implement an instructional model that increases student awareness of the teaching profession, and expand the pipeline of potential future teachers and researchers for educator preparation, academia, and the government who are knowledgeable about the teaching and learning challenges in Louisiana.

MUTUAL INTEREST OF THE PARTIES

This project is of mutual interest to the parties. Driven by a common desire to provide the gold standard of education, both EBRPSS and SUBR are committed to preparing tomorrow's leaders, scientists, researchers, and teachers for challenging careers that impact and require knowledge of the teaching profession.

Each party recognizes that success will be achieved through a close, collaborative working relationship among the partners, and progress will be driven through collaboration, teamwork, and accountability at all levels. The parties share a common commitment to student success, understanding that students' self-confidence will be a critical element of success. The parties also acknowledge that having teachers trained on the curriculum and in leadership development are also essential components of the project's success. The parties are committed to measuring and analyzing the program results and continually updating best practices.

Additionally, the parties share similar visions and missions. EBRPSS' vision is to be a premier educational institution and the cornerstone of the community by inspiring, cultivating, and producing a modern workforce prepared to create a robust and thriving economy. EBRPSS has a mission of inspiring humanity through transformational learning in the classroom and in the community.

Southern University's Mission

The mission of Southern University and A&M College, an Historically Black, 1890 land-grant institution, in Baton Rouge, Louisiana, is to provide a student-focused teaching and learning environment that creates global leadership opportunities for a diverse student population where

teaching, research, service, scholarly and creative expectations for students and faculty are achieved through the bachelor's, master's, and doctoral programs offered at the institution via different instructional modalities and via public service.

The School of Education Vision

The School of Education prepares diverse professionals who foster learning by utilizing technology and best practices in diverse educational and clinical environments.

GUIDING PHILOSOPHY

According to an article published in The Advocate, Louisiana like much of the nation, is facing a teacher shortage that has expanded from math, science, and special education to include virtually all subjects. The state has the fifth highest rate of uncertified teachers in the nation. According to research, increasing the average years of teacher experience and the percentage of teachers who are certified may improve the effectiveness of Louisiana's teaching workforce and consequently improve the quality of the education that students in the state receives. Through a unique partnership between the EBRSS and SU, students in grades 6-12, starting with grade six through nine in the academic year 2023-2024 and adding a grade per year thereafter, will receive educator preparedness through the lens of highly qualified teachers in Louisiana. Effective August 2023, EBRSS students will have the opportunity to participate in a focus choice model that prepares students for careers in teacher education. These jobs range from elementary education with a concentration in special education (1-5), middle school education with a concentration in special education (4-8), secondary education (7-12) with a concentration math, biology, chemistry, general science, social studies, English, K-12 music (vocal & instrumental) and a host of other opportunities. Using real-world experiences, students will apply their knowledge of the teaching profession to address various challenges in urban settings.

The curriculum and study pathways will be based on the Louisiana scope and sequence of the curriculum in grades 6-12 and will include end-of-year culminating opportunities for students to present their work in a presentation format in preparation for a poster symposium. These

opportunities will allow students to apply their classroom knowledge to real-life scenarios. At the end of the student's senior year, students will summarize their research project into a single poster and present it in a poster symposium judged by subject matter experts. Through these processes, students acquire communication, organization, preparation, public speaking, and time management skills in addition to increasing their knowledge of content specific areas.

Throughout this program, students learn concepts, evaluate data, and make decisions based on their observations and knowledge gained through the curriculum.

Re: Request for Approval of Multi-year Contract for Instructure's Canvas Learning Management System

Dear Chairman Shorty,

In keeping with our collective priority of ensuring a more resilient Southern University System in this post pandemic environment, I am pleased to request approval of the multi-year contract between the Southern University System and Instructure for the Canvas Learning Management System. Canvas is the North American market leader among higher education institutions. This request for adoption of Canvas is based on the recommendation from the SUS Learning Management System Review Team after an exhaustive and comprehensive sixteen-month review. A diverse LMS Review Team coordinated a review process that was inclusive, transparent, and comprehensive. It conducted campus surveys, hosted public information sessions for each campus, hosted LMS vendor demonstrations for the campuses, coordinated vendor technical reviews with the Division of Information Technology, and evaluated the vendors based on established objective criteria. The full Summary Report of the Review and the Frequently Asked Questions are available separately.

The benefits of transitioning to Canvas from Moodle are numerous and several are outlined briefly here. The adoption of Canvas is aligned with the SUS Strategic Plan and facilitates achievement of individual campuses strategic goals. Chiefly among proven benefits to our front-end users are its ability to dramatically improve the teaching and learning experience, unparalleled resolute 24/7 US-based technical support, the highest rated mobile application, and real time access to data analytics to assess outcomes achievement to improve retention. From the back-end user perspective, "white-glove" course migration to eliminate instructional disruption for faculty, multiple modalities for continuous training for faculty, students and staff, and improved operational efficiencies through better automation with the SIS. The additional technical reasons related to continuity of service, security, and data preservation that support this transition to Canvas are:

- <u>Instructional and business continuity</u>: Canvas is a true cloud-native learning platform spread across availability zones and geographic regions to ensure that failure at a single data center does not stop service.
- Automated adjustment during peak usage: Canvas is auto-provisioned for consistent, peak performance to detect usage spikes as they happen and immediately spin up additional servers to provide optimal use even during periods of high demand and peak load.
- <u>Data preservation</u>: Canvas institutions' data is backed-up both in near-real-time in multiple distinct locations, and additionally on periodic schedules (e.g., daily, weekly, and monthly). The near-real-time backup happens automatically, meaning that there are always up-to-date copies of an institution's data. Canvas is also self-healing across multiple geographic locations.
- <u>Disaster recovery and redundancy</u>: Canvas provides the best available system of data redundancy and disaster recovery.

With the transition, the Southern University System will join an impressive list of institutions that have transitioned to Canvas. The list includes over 60 HBCUS, the overwhelming majority of the R2 research institutions, 17 Louisiana institutions including the LCTCS school, and the largest national providers of online degree programs. Over the last two years, Canvas has transitioned over one thousand institutions from other systems. Table 1 below includes the disaggregated cost by campus for the five-year contract period. The cost per campus is based on the FTE and each campus will enjoy the full suite of service and options.

Re: Dissolution of Relationship between Southern University at New Orleans Foundation (SUNO Foundation) and Southern University at New Orleans

Dear President Belton:

The Southern University at New Orleans Foundation (SUNO Foundation) has been in existence for 46 years; however, the Office of General Counsel was tasked at the April Board Meeting to determine a possible merger of the SUNO Foundation with the System Foundation or a dissolution of the SUNO Foundation as the System consolidates its fundraising efforts. The SUNO Foundation has indicated that it will not merge with the System Foundation nor dissolve. Therefore, the only option is for SUNO to dissolve its official relationship with the SUNO Foundation and allow it to be an unofficial, independent asset to SUNO's students.

Therefore, I am seeking your approval and the approval of the Board to:

 Dissolve the October 1, 2022 Memorandum of Agreement between the SUNO Foundation and SUNO.

Additionally, I am requesting the Board to:

Repeal Section 6-4 Southern University at New Orleans Foundation of the Bylaws and Regulations
of the Board of Supervisors of Southern University and Agricultural and Mechanical College.

Upon approval, I along with the Office of General Counsel will work with Marla Jefferson, President/CEO of the SUNO Foundation, to amicably dissolve the official relationship between SUNO and the SUNO Foundation while allowing what is currently known as the SUNO Foundation to still be an unofficial, independent asset to the SUNO community.

Respectfully submitted,

James H. Ammons, Jr., Ph.D.

Executive Vice President-Chancellor

Southern University at New Orleans

APPROVED:
