- 1. Each new student shall be provided educational information on the dangers of and prohibition on hazing during the new student orientation process in the form of a handbook.
- 2. In addition to the requirement of providing educational information in the form of a handbook as provided in the previous paragraph, beginning in the fall semester of 2019, each new student shall be provided educational information on the dangers of and prohibition on hazing during the new student orientation process either in person or electronically.
- 3. Each organization as defined above in this Policy and in R.S. 17:1801.1 shall provide annually at least one hour of hazing prevention education to all members and prospective members. The education may be provided in person, electronically, or both. Each organization shall submit a report annually to the institution with which it is affiliated relative to the students receiving such education evidenced by an attestation of the student receiving the education.
- 4. The hazing prevention education required under the provisions above shall include the information about criminal penalties for the crime of criminal hazing. Information shall also be provided to organizations on their obligations under the law, including the duty to investigate and report; and on the possible loss of funding and other penalties applicable to organizations under the Hazing Laws.

ii. Duty to Seek Assistance

1. In accordance with Act 637 of 2018, codified at R.S. 14:502, each institution's policy shall require any person at the scene of an emergency who knows that another person has suffered bodily injury caused by an act of hazing shall, to the extent that the person can do so without danger or peril to self or others, give reasonable assistance to the injured person. Each institution's policy and educational information shall include the criminal penalties for failure to seek assistance in violation of R.S. 14:502.

iii. Enforcement of Laws, SUBOS Policy and Institutional Policy

1. Each institution shall implement and enforce with full fidelity and consistency the Hazing Laws as listed above, this Policy and the institution's own policy. Failure to enforce or inconsistencies in enforcement shall constitute violation of the Hazing Laws and this Policy.

VI. POLICY RELATED INFORMATION

In addition to the mandatory components of institutional policies and practices, each institution is encouraged to follow best practices, some of which are outlined below:

a. Ongoing Prevention and Awareness Campaigns

Ongoing prevention and awareness campaigns may consist of programming, initiatives, and strategies that are sustained over time and focus on increasing understanding of topics relevant to hazing prevention. An example of such an initiative or program is joining institutions across the country in the observance of National Hazing Prevention Week.

b. Data Collection and Analysis

Institutions are encouraged to create task forces to gather, analyze and understand institutional data on hazing. Effective hazing prevention presupposes an understanding of the cause, identifying any trends that the data show and assessment of the risk factors as well as protective measures.

c. Effective Intervention

In collaboration with relevant organizations and student bodies, each institution is encouraged to develop intervention strategies and measures appropriate to the context specific to that institution and to the various organizations affiliated with it. The role of bystander intervention and social norming is key to hazing prevention and is recommended as part of campus intervention strategies. In support of state laws to combat hazing, bystander intervention training and social norming should be part of any education and training aimed at preparing faculty, staff and community members to understanding hazing issues and statistics on campus.

d. Response Plan

Institutions are encouraged to convene teams with the necessary expertise, including coaches, resident advisors, Greek-lettered organization officials, alumni and coaches. Each year before the beginning of the academic year, the teams should develop a response plan delineating the procedures for handling any hazing incident.

VII. POLICY IMPLEMENTATION PROCEDURES

The Office of the President-Chancellor in conjunction with the governed institutions administration will be charged with implementing this policy.

Southern University System Social Media Guide

One Mission

Southern University and A&M College System uses social media to alert our constituencies and stakeholders about SUS news, events, programs, etc, and to engage in conversations with all members of the Southern Family. Whether it is faculty, staff, students, administrators, fans or alumni, SUS uses social media to find out what's important to the entire System and to share that information with each other and the world. Our main channels are Facebook, Twitter, Instagram, and YouTube. Like, follow, and watch us and respond as our brand grows!

The Southern University System invites communication interaction from its constituencies on University pages on social networking sites. Information guests choose to post on social media sites is public, so discretion should be used when deciding whether to post personal information on these sites. Use of these sites is voluntary, and any guest using them assumes the risk associated with the use of social networking sites. Comments and content posted by guests do not reflect the positions or opinions of the Southern University System.

What is Social Media?

Social media is defined as the use of online tools and services that allow Internet users to create and publish content. Users with similar interests can interact in communities by sharing information and knowledge. Many social media sites, such as Twitter, Facebook, and LinkedIn can serve as personal profiles where users can post information about themselves. Social media also allows users to gain support, share information with friends and increase existing networking circles. Popular social media websites include Facebook, Twitter, LinkedIn, Foursquare, YouTube, Flickr, and blogs.

times my department/enllege/unit need a social modia account?

Before starting a social media account, ask yourself these three questions:

- 1. What does my department, program or organization hope to accomplish through social media?
 - Draft your goals in order to properly track the return of your investment in a social media channel. Ensure you are properly seizing the available opportunity to elevate the perception and image of the University's programs, and success of the University as a whole.
- 2. Where or who is my target audience?
 - Concentrate your efforts on one platform before expanding your presence. Take the time to engage and grow your following. Social media is about transparency and customer service.
- 3. Does the office/department, program/organization have the content to sustain a dedicated social presence, or is a hashtag and collaborative promotion on central accounts more beneficial?

- Successful social media managers update Facebook one to two times each day
 and Twitter, five to seven times a day. Departments and organizations that are unable to
 meet the content requirements to sustain a dedicated and robust social media
 account should partner with your campuses' official accounts to serve their social media
 needs.
- A hashtag is a word or phrase preceded by a hash or pound sign (#) and used to identify
 messages on a specific topic. For example, #WeAreSouthern is the official hashtag of the
 System's recent branding campaign and is used frequently on social media. Hashtags can
 be used to group messages of similar topics together or be an identifier for cetain persons
 or organizations.

If you deem it necessary to create a social media channel, you must alert your campus Office of Communications by completing the Social Media Directory form. (See appendix)

For a list of official System/campus social media channels, please contact your campus Office of Communications.

Let's Get Started

- Outline your social media goals: By outlining your goals, you are able to successfully choose what social media channel is best suited for your primary objective. Pay close attention to the level of available resources for your social media channel. Although they are free to create, successful social media use requires time and attention. An inactive account that does not have a steady stream of new and relevant content will decline and fail. If you find that you don't have enough time to devote to the ongoing growth of a social media platform, consider delivering your messages through your eampus' official social media channels.
- Assign a manager to your platform: Designating an administrator role to one person in your department or organization will ensure that you maintain a focus on your social media goals. This does not need to take up a significant amount of time, but successful maintenance of social media sites requires frequently updating the content, engaging with your audience, and responding to problems that may occur. You should update your platform at least twice a day. Electing a backup person for this will ensure your accounts are managed when the primary manager is away or unavailable.
- Uphold professional decorum: Account administrators should only post as the voice of
 the department or organization. This protects the privacy of the account administrator and
 maintains the consistency of professionalism for the unit. Account administrators and the
 University reserve the right to review all comments and posted materials and remove
 such materials for just reason and/or policy violation.
- Choosing the right platform: Be familiar with current and emerging tools, but try to
 consider ones that will further your marketing or communication goals. Having too many
 accounts can cause burn out and lead to inactivity.

- Appropriate Labeling: Creating an account name that demonstrates association with a
 Southern University System campus as well as a literal name is the best approach. For
 example, the SU Admissions Office should choose the Twitter name @SUAdmissions.
 Most social media platforms allow the user to create a custom profile photo or avatar.
 Make sure the image is appropriate and iconic.
- Launch & Adjust: Once you've gone through these steps, the social media site is ready to launch! Be sure to publicize the platforms around the campus and on printed materials to build up your following.

Social Media Policy

The use of social media is increasingly common for University departments, students, and employees. These communication tools have the potential to create a significant impact on organizational and professional reputations. SUS has developed policies to properly portray, promote, and protect the institution. To access the policy that further explains best practices and ramifications, please visit the SU System Social Media Policy. (link will be attached)

Sortal Media Best Practices and Content Guidelines

Southern University System employees and students are expected to adhere to the same standards of conduct online as they would in the workplace and on campus. All laws and policies outlined in the employee and student handbooks, including, but not limited to interacting with students, parents, alumni, donors, media, and all other university constituents apply online and in the social media context just as they do in personal interactions.

- Post only content that is not threatening, obscene, a violation of privacy laws, or otherwise damaging or illegal.
- The discussion or posting of information regarding pending university litigations in which you are party is prohibited on any social media accounts, especially accounts that are affiliated with the university.
- Ensure that links to other sites or attachments work.
 - Less is best: When writing copy, try to limit emojis or social media symbols. Readers
 who may not have the latest technology will not be able to decipher your message if they
 cannot read it with blocked symbols.
 - By posting content to any social media site, the administrator is held responsible for the
 content that appears on their social media site. They also must agree that they will not
 knowingly provide misleading or false information. In doing so, they will remit and hold
 the University harmless for any claims resulting from the content.
 - The System/campus Office of Communications should be notified immediately when the there is a personnel change in a social media's channel administrator. The Social Media

Directory form should be updated to reflect the change.

- When using or posting online material that include direct or paraphrased quotes, thoughts, ideas, photos, or videos, please include the appropriate citations and attributions. Provide a link to the original material, if applicable.
- Refrain from posting information and conducting activities that may violate local, state, or federal laws and regulations. If you are unsure whether certain content is protected by privacy or intellectual property laws, contact your campus Office of Communications.
- Representation of your personal opinions interpreted as being associated with your
 campus, the System or any of its organizations is strictly prohibited. The names, logos,
 watermarks, or images associated with any of the Southern University System campuses
 may not be used to endorse any opinion, product, private business, cause, or political
 candidate.
- If you also maintain personal social media accounts, you should avoid confusion over whether or not the account is associated with your campus or the Southern University System. If you identify yourself as a Southern University System faculty or staff member online, it should be clear that the views expressed on your site are not those of your campus or the Southern University System and you are not acting in your capacity as a Southern University employee. While it is not mandated, Southern University System employees may consider adding a disclaimer to personal social media accounts. For example: "While I am an employee at Southern University, comments made on this account are my own and not that of the University."
- Respect fair use and copyright laws. Please do not share or repost information or content
 that may be offensive or inappropriate.

Determine who owns the material you want to pren,

Typical examples of copyright 'owners' include:

- Author of a written work
- Photographer who took the picture
- · Composer of a song or melody
- Videographer of a video
- Journal/publisher of a published work
- Creator of artwork
- · Programmer of software
- Employer of any of these people if the work was done in connection with their employment

How the you get permission to past experiented contents?

- Contact the owner
- Contact the Copyright Clearance Center
- Contact the Office of the General counsel at 225-771-4080 for assistance.

Canal possing of the material be considered a fair nee' under the Copyright Aut?

Use is likely fair if:

- Character of the use is nonprofit, educational, or personal
- Nature of the material used is factual published material
- Only a small amount of the material will be posted or
- · Impact on the market for the material is very small

Use is likely not fair if:

- Character of the use is commercial (promoting a product or service, charging to access the copyrighted material, advertisements)
- Nature of the material used is imaginative and/or unpublished
- The majority of the material will be posted (i.e. an entire book vs. a quoted sentence)
- Use detrimentally impacts the market for the original
- Use was 'fair' at one time, but has been repeatedly reused or more widely distributed, or
 the copyright owner has requested that the use be limited or discontinued. For example,
 use of a portion of a journal article or a photo may have been Fair Use one time, but used
 annually for the same event or purpose, loses its Fair Use character.

What are the regulation for infringing someone's copyright?

Typically, a copyright holder's first response to an act of infringement is to send you a "cease and desist" letter demanding that you stop infringement. The copyright holder can go to court to get an injunction or a court order requiring you to remove the infringing material from your account, Web page, or profile. Additionally, a copyright holder can file a claim for actual damages suffered by the copyright holder as a result of your infringement.

If the copyright has been registered with the U.S. Copyright Office, the copyright holder can file a claim for 'statutory damages' without proving that the copyright holder was actually harmed by the infringement. An award of statutory damages can be as little as \$750 or as much as \$30,000. If the copyright holder can prove that you knew the work was protected under the law, an award of damages can be as much as \$150,000.

What are the implications of posting superigated numeral on Facebook, Dicke I witter, Linked Dr. and You'l size?

When you post copyrighted materials on these social media websites, such as Facebook, they automatically obtain a license to use those materials, commonly known as an Intellectual Property, or "IP" license. They can use this IP license to share the materials all over the world without your further permission and without paying you any royalties. Some websites also reserve the right to change, commercialize and publicly perform or display the materials. This IP license ends when you delete the materials or terminate your account unless the materials have been shared with others and they have not deleted it. This could mean that the social media website effectively owns a license to use the materials you posted, for whatever purpose it desires, forever.

Privacy

The SUS Office of Communications monitors University-related content on the web including social media platforms. University policies to be followed and applied to social media platforms include, but not limited to, standards of privacy, conduct, ethics, discrimination, harassment, and bullying. Violation of University policy will subject the violator to disciplinary action. General privacy guidelines include:

- I. Account administrators and employees must follow FERPA (Family Educational Rights and Privacy Act), HIPAA (Health Insurance Portability and Accountability Act) and NCAA (National Collegiate Athletic Association) guidelines.
- Personal information, including contact and credit information, social security numbers, and email addresses are not to be posted or shared.
- 3. Do not post images of individuals without consent.

Posts Related to University Athletics

Southern University's Athletics program is committed to operating within the NCAA and university rules and regulations, which included all interactions between the university, its employees and student-athletes or prospective student-athletes.

As a coach or university-appointed athletic recruiter, it is suggested to avoid commentary online on athletic related topics other than game outcomes and general comments concerning game and athletic activities. In compliance with NCAA guidelines, it has been set that employee and University accounts are restricted from commenting or sharing any information on social media platforms regarding recruiting or the recruitment of specific student-athletes. Other university entities, such as admissions, individual departments/colleges, and etc. can send

public exchanges including, post/repost, tweet/retweet, like/favorite, in the instance that the university athletics department is not involved. These postings bear serious conquences for the employee(s) and university. Be mindful of NCAA sanctions and good sportsmanship conduct. For details or questions, contact the assistant athletic director for media relations at 225-771-3495.

Information provided in the "Posts Related to University Athletics" section were originally created by the University of Alabama and modified by the Office of Communications.

Emergency Communications

In the event that a campus emergency is developing, do not post unproven information regarding the situation. It is best to refrain from posting any information related to the emergency and allow the official campus social media site to post updates and information relative to the crisis. For proper crisis communications response, please refer all inquiries to the University's official communication sources and notify your campus director of communications. If you discover inaccurate information about an unfolding crisis, please contact the director immediately.

Posting Medical Conditions

It is prohibited to post personal details about an individual's medical condition on social media outlets affiliated with the University. If the person is in leadership, contact the communications specialist at 225-771-5571 to draft a public statement about that individual.

Use of Social Media Sites for the Placement of Advertising

University departments and individual employees are not authorized to enter into advertising agreements with social media sites. Any Southern University unit wishing to purchase advertising services from social media sites, or from any type of publication, must follow all applicable rules and policies mentioned in the SU Visual Identity Guide (provide link) and the terms and conditions outlined in the procurement of services provided by the vendor. Because most, if not all, social media sites will require a "clickwrap" agreement (online contract that can be accepted by clicking "Yes" or "I accept"), University employees generally do not have the authority to place advertising without administrative approvals. Requests for approvals should be directed to the marketing specialist at 225-771-5571.

Expenal Parinceships

We advise university departments and organizations to inform the System Office of External Affairs, the Southern University System Foundation, the Southern University at New Orleans Foundation, or the Southern University at Shreveport Foundation before entering into a partnership or contract with an external organization or company. Due to existing agreements and partnerships, we do not want to violate any competition clauses.

Commercials and Video Promotions

Digital promotional videos are a popular source of advertising. To protect the University's brand, all video promotions and commercials need to be approved by your campus Office of Communications. The office will evaluate the content and offer creative feedback. When planning the production and seeking approval from the office, make sure to have a clear vision, story boards, wardrobe options, props, and music selections available for evaluation.

Proportional Materials

All promotional materials that are printed or displayed that are affiliated with a Southern University System campus and use the Universities' logo must be approved for print by the campus Office of Communications. The goal is to have consistency throughout the SU brand. Before you develop any creative or content for the materials, please review the campus Visual and Style Identity Guide. Once the material has been drafted, please provide a copy to campus Office of Communications for approval.

SOUTHERN UNIVERSITY AND A&M COLLEGE SYSTEM

Office of the Vice President, Strategic Planning, Policy and Institutional Effectiveness

J. S. Clark Administration Building, Fourth Floor Baton Rouge, LA 70813

MEMORANDUM

TO:

Ray L. Belton, Ph.D.

President - Chancellor

FROM:

Vladimir A. Appeaning, Ph.D.

Vice President for Strategic Planning, Policy and Institutional Effectiveness

DATE:

August 13, 2018

RE:

Re-Alignment of SUS-SUBR Office of Strategic Planning, Policy and Institutional Effectiveness

Currently, the SUBR Institutional Research and Assessment (IRA) unit performs basic assessment functions and collects, analyzes, and reports institutional data to external and internal constituencies.

- The IRA unit is staffed by a director, assistant director, senior data analyst, research/data analyst, and a testing/outcomes coordinator. The IRA unit's operations are primarily supported with federal Title III funds (\$272,376) coupled with a small (13%) investment of state general funds (SGF) in the amount \$35,984 for a total of \$308,360. Currently, the SGF funds are primarily invested in the director's salary.
- Since federal Title III funding support is designed to primarily enhance campus-level operations, outside of the IRA unit's director, the existing IRA positions are <u>prohibited</u> from performing system-level institutional research and assessment work.
- The SUBR IRA unit reports directly to the executive director for strategic planning, policy and institutional effectiveness, a dual role position (SUS and SUBR) that reports directly to the system's office of the vice president for strategic planning, policy and institutional effectiveness, an office that dually supports SUS and SUBR.

Currently, the system's (SUS) institutional effectiveness, strategic planning and policy work is conducted by the vice president supported primarily by the executive director.

- Recent resignations and retirements in the SUBR IRA office have opened the opportunity for a re-alignment of the SUBR and SUS institutional effectiveness functions and offer opportunities to existing SUBR staff.
- As part of the proposed organizational re-alignment, the current SGF investment of \$35,984 or 13% is increased to 15% or \$48,124. The net increase of 2% or \$12,140 in SGF will allow the SGF funding to be dispersed among all five current positions, and not just the director's position, thereby releasing the prohibition of the existing staff in performing system-level institutional effectiveness, strategic planning and policy work.
- By utilizing existing positions in a dual role, the system:
 - O Saves on personnel cost (no need to hire system-level support staff no need for new FTEs).
 - O Leverages efficiencies, expertise, and ensures compliance with external reporting requirements such as the Louisiana Performance Accountability System (LaPAS) reporting mandates at both campus and system levels.
 - o Increases productivity all identified existing positions will be instrumental in assisting the system's office of the vice president for strategic planning, policy and institutional effectiveness in establishing a coordinated policy-platform that seamlessly integrates institutional effectiveness, policy and strategic planning designed to measure the health index of the Southern University and A&M College System with respect to established outcomes of student success that include access and articulation; retention and progression; online and distance learning; retention, completion and graduation; scholarship and research; academic programs and service learning; workforce and economic development; advancement and development; physical plant and capital improvements; and accountability.
- Of the three proposed highly qualified candidates for the existing and currently funded positions, two of the three proposed candidates are internal SUBR employees, while the third in an external candidate. With pending SACS re-affirmation requirements for the SUBR campus, as well as SUNO and SULC, all three qualified candidates are respectfully proposed with a request to waive the search, in order ensure a seamless transition in the execution and completion of ongoing data reporting requirements to various external and internal constituencies, as well as ongoing planning and assessment activities and obligations.

Proposed Re-Aligned and Integrated Office of Strategic Planning, Policy and Institutional Effectiveness - SUS and SUBR

The integration and re-alignment of the institutional effectiveness (IE) functions, will allow the system's office and SUBR campus to strategically engage in data-informed decision making, strategic planning and assessment, and resource allocation to support student success and mission achievement. IE represents an excellent opportunity to strategically leverage data and policies to aid the system's office and campuses in advancing their collective continuous quality improvement and assessment efforts. It is the expectation of the President-Chancellor of the Southern University A&M College System that the Southern University campuses will continue to engage the faculty and staff in a <u>systematic, integrated, research-based, ongoing</u> and <u>comprehensive</u> (SIROC) planning and assessment process. The re-aligned and integrated office will spearhead the implementation of all (5) phases of the newly developed IE Annual Planning and Assessment Model – designed to demonstrate a continuous cycle of improvement that leads to academic and administrative excellence, thereby advancing an evidence-based planning and assessment culture that is focused on continuous improvement wrapped around the mission.

Re: Position Vacancy Authorization and Announcement Waiver Request

Dear Dr. Belton:

I respectfully submit this letter to request authorization to waive the search for the position of assistant director of institutional planning and assessment for the Southern University Baton Rouge (SUBR) campus. The assistant director of planning and assessment is responsible for coordinating university-wide planning and assessment activities. The assistant director works closely with the leadership at both the micro and macro levels of the institution to ensure that, the faculty, administrators, staff, and students are fully engaged in a systematic, integrated, research-based, ongoing and comprehensive planning and assessment process on an annual and cyclical basis for educational and non-instructional programs. The assistant director is instrumental in establishing an evidence-based culture focused on continuous improvement.

This is an existing position. I respectfully request authorization to waive the search for this position and appoint Ms. Angela Bruns as the assistant director of planning and assessment. Ms. Bruns is an accountant by training with a master's degree in business administration. Currently, Ms. Bruns serves as the department head and chairperson for the business program, where she is responsible for all planning and assessment activities, including the completion and submission of program learning outcomes, curriculum development, faculty evaluations, student course evaluations, and meeting the programmatic accreditation requirements for business programs by the Accreditation Council for Business Schools and Programs (ACBSP). Ms. Bruns brings over 15 years of planning and audit/assessment experience from both the private sector and a decade of academic experience at the Baton Rouge Community College (BRCC), where she routinely leads her faculty in completing a program health index that has consistently established her business program as a 5-Star Program, empirically illustrated the positive fiscal health of her program and proven the demand of business graduates to advancing Louisiana's economy. Finally, through strategic planning, Ms. Bruns has consistently established clear goals and S.M.A.R.T. objectives for her program. Given the critical nature of this position in support of SACS accreditation requirements, I respectfully request authorization to waive the search for this position and appoint Ms. Angela Bruns as the assistant director of planning and assessment. Ms. Bruns' resume is enclosed for you review and consideration.

Thank you for your favorable consideration of this request,

Respectfully submitted,

Vladimir Alexander Appeaning, Ph.D.

Vice President for Strategic Planning, Policy and Institutional Effectiveness

> Re: Position Request for Director of Facilities, Request for Waiver of Search, And Salary Adjustment

Dear Dr. Belton:

By way of this letter, I am requesting the creation of the position of Director of Facilities at Southern University Law Center (SULC). I believe that this position will greatly improve and enhance the efficiency of our overall operations and facilities. The salary for the position will be \$71,350.00.

The position will be under the supervision of the Vice Chancellor of Finance and Administration at SULC. The primary functions of the position will include operational management of the SULC facility, including building maintenance, mechanical maintenance, renovations and new construction, event planning, facility rentals and facility security.

The Director of Facilities at SULC will interact, interface, and coordinate with SUBR and SUS maintenance officials. The Director will supervise three (3) direct reporting staff members and two (2) indirect reporting staff members. The position requires knowledge of the latest technology and procedures for facilities management.

I have consulted with Mr. Terry Hall, the SULC Vice Chancellor for Finance and Administration and we both agree that Ms. Angela Gaines should be appointed as the Director of Facilities at SULC. She currently earns \$62,579.00 per year in her current position. Her pay adjustment would be \$8,771.00.

Dr. Ray L. Belton July 12, 2018 Page -2-

Since 2012, Ms. Gaines has split her work time between the SULC Library and SULC facilities to ensure that SULC has an attractive and suitable physical working environment for students, faculty, and staff. On a case by case basis she has overseen procurement and contractual maintenance management activities to include catering, vending, health and safety, security, utilities infrastructure, and space management. SULC has invested a substantial amount of funds for her to secure professional leadership training in the area of educational facilities.

Therefore, this letter is to request a Position Authorization and Vacancy Announcement Waiver for a search to fill the position. Ms. Gaines has the experience and education to be the Director of Facilities. Utilizing her would enable us to transfer/hire her into the position and negate the long drawn out process of interviews and screening.

After your review, I request your approval of the position of Director of Facilities and I would like for this request to be presented to the Southern University Board of Supervisors for their approval at its August Board meeting. The appointment, if approved would become effective September 2018.

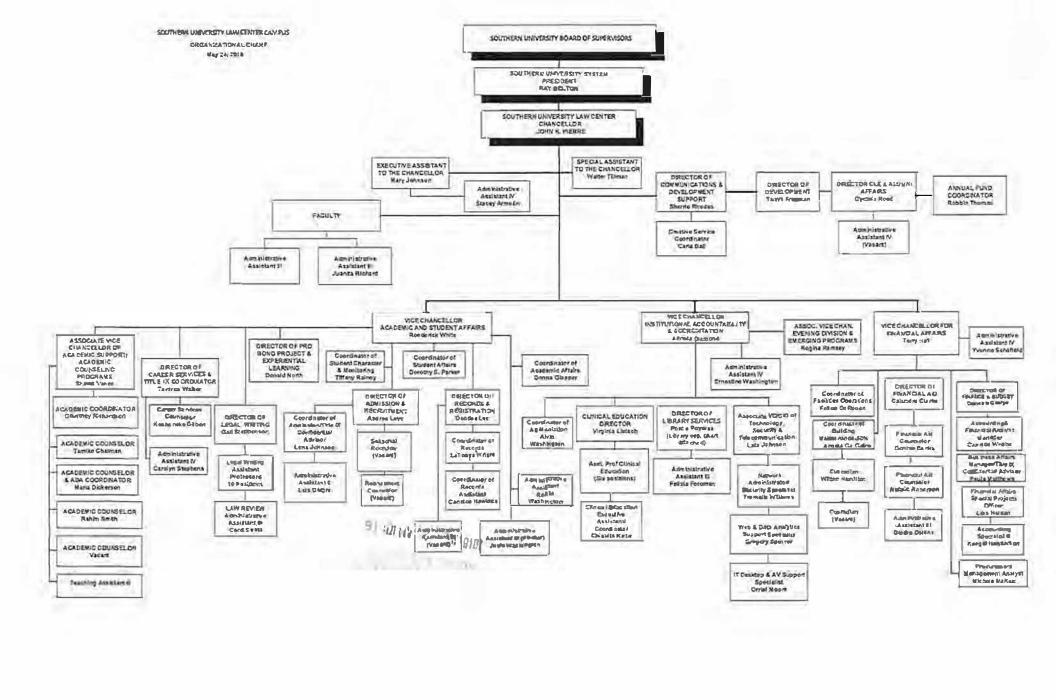

Thank you for your consideration and with kind regards, I am...

RE: Increase in Salary for Visiting Professor Michael Garrard

Dear Dr. Belton:

Professor Michael Garrard has served as a visiting professor at the Southern University Law Center (SULC) and has increased the pipeline of students matriculating at SULC through his extensive recruiting efforts, and outreach efforts over the last three years. Each year the enrollment for SULC has exceeded national and regional expectations when other law schools saw deep declines in enrollment.

Because of his efforts, the SULC entering class for Fall 2018 will exceed the Fall 2017 entering class by approximately 50 students. SULC has hired at \$100,000 a year four visiting professors for the 2018-2019 academic year and had to add an additional class section to accommodate the additional students. Because of the departure of two professors for the 2018-2019 academic year and to promote equity, SULC seeks to increase Professor Garrard's 2018-2019 academic year pay to \$100,000 to coincide with the salaries of the other four visiting faculty members. This increase is only for the 2018-2019 academic year and will be revisited for the 2019-2020 academic year.

I respectfully ask that his request be placed on the SU Board agenda for August 24, 2018 board meeting in Shreveport. If you have any questions, please feel free to contact me.

Yours Sincerely,

John K. Pierre, Chancellor &

Vanue B. Lacour Endowed Professor

Dear Dr. Belton:

I respectfully submit this letter to request authorization to waive the search for the position of director of institutional research and assessment for the Southern University Baton Rouge (SUBR) campus. The director of institutional research and assessment is responsible for conducting institutional research in support of academic and administrative decision-making, planning and policy development for the SUBR campus.

This is an existing position. The current director, Dr. Guillory, resigned effective August 12, 2018. Mr. Gavini is the longest tenured staff member in the Office of Institutional Research and Assessment (IRA), currently serving as the senior data analyst. Mr. Gavini brings over 20 years of IRA experience. He is knowledgeable of institutional research practices and processes in a higher education setting. He is proficient with analytical databases, query methods and statistical software. He is knowledgeable in the use of Qualtrics and other survey tools.

He has demonstrated knowledge of data collection, analysis, reporting and presentation, and research methods. He has demonstrated a leadership style that conveys a high level of integrity, courtesy, service, teamwork and support to colleagues. Mr. Gavini is intimately familiar with SUBR and has a proven record of accomplishment and success. Given the critical nature of this position in support of SACS accreditation requirements, I respectfully request authorization to waive the search for this position and appoint Mr. Reddy Gavini as the director of institutional research and assessment. Mr. Gavini's resume is enclosed for you review and consideration.

Thank you for your favorable consideration of this request,

Respectful Mysubmitted,

Dr. Christopher Guillory 42506 Bart Street Gonzales LA 70737

Dear Dr. Christopher Guillory:

It is our pleasure to offer you, subject to the official approval of the Southern University Board of Supervisors, a tenure-track appointment as an Associate Professor of Science and Mathematics Education in the Department of Science and Mathematics Education (SMED) at Southern University and A & M College (SUBR). The initial appointment, if accepted, officially begins on Monday, August 13, 2018.

The following are the conditions of this appointment.

Your initial academic salary will be \$77,000 for nine months. The University will require proof of U.S. citizenship or the appropriate visa status for permanent employment. A candidate for tenure must complete a probationary period. Because your initial appointment as a tenure-track Associate Professor will be on a probationary basis, we are recommending that you be eligible to apply for tenure in three years. However, this probationary period shall not exceed a period of seven years. The general provisions of your employment will be governed by the policies outlined in the Southern University – Baton Rouge Faculty Handbook.

The duties of the position require you to teach graduate courses, assume student advising responsibilities, supervise graduate students, direct dissertation research and develop and sustain an independent, extramurally sponsored research program. The teaching load will be two graduate courses per semester. You are expected to participate in the SMED Ph.D. program, therefore, you must apply during your first week of employment to the Oraduate School at SUBR for Graduate Faculty Status and be officially approved. All faculty members are encouraged to obtain research funds from external agencies for their summer support, which is paid at your academic year monthly rate.

The payroll system at Southern University pays the 9-month academic year salaries from August through May. You will receive 1/10th of your academic year salary on the last working day of each month beginning in August and continuing through May of the following year, Should you receive external funding, additional summer support funds are paid based on your monthly academic year rate (1/9th of your academic year salary). The summer payments are paid on the last working day of the requested summer month (June, July, and August).

Southern University has an attractive benefits program and an excellent environment for professional growth and development. Benefits at SUBR include both life and health insurance, and a retirement plan. You may
